# LED Rigid Linear Square Series

Interior Illumination

The Eslight LED Rigid Linear Squares (single color and RGB) were designed to provide lighting designers with a rigid linear LED solution for indoor applications in areas that require additional protection. These areas include heavy foot traffic areas such as stair toe kicks, bar foot rests, and under cabinet cove illumination.

The LED Rigid Linear Square is easy to install, and virtually indestructible over the ultra-long lifespan of product! LED Rigid Linear Squares are low voltage energy saving products that incorporate the very latest in LED technology. The LED Rigid Linear Square is available in single colors such as WLED (White), Red, Green, Blue, Yellow, and Orange with the Ø3 LED or optional SMD 1206 single color LED. The RGB LED Rigid Linear Square offers full color 1206 SMD LED's.
